

April 11, 2006 – Richmond, BC

FOR IMMEDIATE RELEASE:

**ACROHELIPRO'S JUNEAU, ALASKA FACILITY
ACHIEVES FAA DIAMOND CERTIFICATE OF EXCELLENCE**

Richmond, BC April 11, 2006, ACROHELIPRO Global Services Inc. a subsidiary of Vector Aerospace Corporation is pleased to announce the achievement of the Diamond Certificate of Excellence in the Maintenance Employer Award Program awarded by the Federal Aviation Administration, Juneau, Alaska.

“This award is in recognition of our interest in safety through providing continued training of one hundred percent of our maintenance technicians,” stated Elvis Moniz, ACROHELIPRO’s Avionics Manager.

FAA Aviation Safety Program Manager, Patricia Mattison commented “Participation in this Award Program places ACROHELIPRO in an elite group of Aviation Operators. Thank you for investing your time and resources in the Aviation Maintenance Technicians Employer Awards Program. We appreciate your commitment to aviation safety and look forward to your continued participation in the program”.

ACROHELIPRO Global Services Inc. is a world leader in providing full service support, including maintenance, logistics and engineering services, for a wide variety of helicopter types.

Vector Aerospace Corporation is an independent provider of aviation repair and overhaul services. Through facilities in Canada, the United States and the United Kingdom it provides services to commercial and military customers for various types of gas turbine engines, components and helicopter airframes. It also provides information technology solutions to an international customer base. Principal operations include Atlantic Turbines, Sigma Aerospace, ACROHELIPRO Global Services and Pathix. The Company has approximately 1,100 employees.
